ABOUT HOEDSPRUIT ENDANGERED SPECIES CENTRE

The Hoedspruit Endangered Species Centre (HESC) has established itself as one of the leading private research and breeding facilities for endangered species in the country. Governed by a progressive and modern management approach, it concerns itself with the breeding and maintenance of several endangered indigenous wildlife species in southern Africa. The centre places particular emphasis on the breeding and maintenance of cheetah in captivity. The excellent condition of these animals and the premises on which they are maintained, reflect the attention to detail, which is the hallmark of this facility.

The duration of each tour is 2 hours. Therefore it enables the visitor to have sufficient time to ask questions to the guide and do an in-depth tour of the centre.

DELI @ CHEETAH

Visitors may enjoy a selection of home baked cakes and a light meal under thatched cover overlooking the Centre's enclosures. Refreshments such as coffee, tea, soft drinks, wine and beer are but some of the offerings available to a thirsty palate.

The Deli @ Cheetah centre is open all year round, 7 days a week apart from Christmas day, 25th December.

Groups can be catered for, but we advise bookings to guarantee efficient serving time.

CURIO SHOP

One of the most important sources of funding at the HESC is the curio shop; stocked to the brim with locally made artefacts, wildlife literature, and children's toys, visitors will no doubt enjoy the experience of browsing through the colorful shelves.

Many of the pieces for sale in the shop are made by local communities, renowned for their proficiency in beading and weaving.

All proceeds from sales in our curio shop from your visit will go towards the care and up-keep of our hundreds of animals and birds.
